Reissue Applications

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The error in the declaration is not specific enough under MPEP section 1414(II)(C). MPEP 1414 (II)(C) states that "(a)ny error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error." It further states that "(a) statement of "failure to include a claim directed to ..." and then presenting a newly added claim would not be considered a sufficient "error" statement since applicant has not pointed out what the other claims lacked that the newly added claim has, or vica-versa. Applicant has failed to identify the specific claims and the specific claim language wherein lies the error. Applicant states that the error is applicant failed to claim the subject matter at col. 12, lines 11-19 of U.S. Patent No. 6,359,206. New dependent claim 18 was apparently added to correct this error. This cited error is less specific than just stating that the error was failing to include new claim 18 and is not sufficient under MPEP section 1414(II)(C). Moreover, the failure to just add a dependent claim is not an error correctable via reissue since the subject matter of the dependent claim would be covered by the independent claim on which the dependent claim depends. Therefore, the patent would not be considered wholly or partially invalid or inoperative by failing to include this dependent claim

2. Claims 1-3, 5, 7, 8, and 12-20 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
